PREFACE.

THIS Appendix of the MEDICAL DIGEST has, in accordance with numerous requests, appeared sooner than was originally intended. The vast amount of fresh material accumulated during the last few years, will, it is hoped, justify the departure from the original plan. Each Section corresponds with the same numbered Section in the edition of 1890. Where there is any addition to a subject mentioned in that edition the word *Contd.* follows, thus:—

713.

PERTUSSIS *Contd.*
SEQUELÆ *Contd.*
—PAPERS *Contd.*
—TEMPORARY BLINDNESS.

whereas, if *Contd.* do not follow, then the subject treated of is entirely new, as TEMPORARY BLINDNESS.

The Clinical Sketches have been added to the Periodicals included in the DIGEST.

CS indicating Clinical Sketches.
* ,, Paper specially worthy of notice.
etSeq. ,, that the Indices of the Periodicals have to be consulted.

To make proper use of the Appendix, the Index of Edition of 1890 must be first consulted for any subject, and the corresponding Section referred to in the Appendix to see if fresh matter has been added. If the Index of 1890 does not refer to the subject sought for, then turn to Appendix Index, in which new subjects are alone noted.

The Second, and probably the Third Appendix, will be incorporated with this, the First, in order to facilitate reference.

The original of this book is in
the Cornell University Library.

There are no known copyright restrictions in
the United States on the use of the text.

INDEX.

The Nos. in this Index refer to the Sections and their Divisions, which are shown by the black figures in the COLUMNS *of the Work. Thus:—Abdomen* 943:1, *the figures before the colon refer to the Section* 943, *and the figure after the colon to Division* 1 *of the Section, vide Preface. Botanical Natural Orders found in Index merely indicate where that class of Plants is placed in the body of the Work. The paging has no reference to the Index, and is only retained for the use of the printer and binder.*

This Index only refers to subjects not to be found in the Index of 1890 *Edition.*
